Add device

1. Power up the wall switch.
2. Press the button for a few seconds until it fast blinks to enter into WIFI pairing status.
3. The blinking way is: blink 3 times and on repeatedly.
For Android users, please select the first icon and click NEXT.
For IOS users, please select the corresponding icon, click NEXT. EWeLink will auto-search and connect to the device.
4. Input your home SSID & password:
If no password, keep it blank.
Now eWeLink only support 2.4G WIFI communication protocol, 5G-WiFi is not supported.
5. Name the device to complete.
6. Maybe the device is "Offline" on eWeLink, for the device needs 1-2 minutes to connect to your router and server.
When the green LED on, the device is "Online". if eWeLink shows still Offline", please close eWeLink and re-open.

Notes

1. Install the switch with electricity off
2. Do not exceed the maximum load
3. Do not test without the glass panel. Please install the glass panel before switch on the power.

Easy to clean/Good insulation/Beautiful and durable

Wifi control switch

The switch uses a glass crystal panel and a luminous indicator. Smooth and sensitive, easy for the elderly and children to use

Wireless control

Luminous light

Touch button

Original line replacement

Available in three colors

White

Black

Gold

Wifi control

Control switches from anywhere with your smartphone, and drag to adjust the brightness you like.

Moisture proof

The wet hand can operate the panel, and the water vapor does not easily enter the inside of the panel.

Fire retardant

The wet hand can operate the panel,
and the water vapor does not easily
enter the inside of the panel.

Capacitive touch sensing

Can be touched directly, as fast as a smartphone.
The surface of the glass is also very smooth

Luminous light

Soft blue indicator light makes it easy to use the switch at night, and does not disturb sleep.
